Having the freedom to choose

where, when, and how you recover from an unexpected accident or illness may be all you need for comfort and peace of mind.

Answer the hardest question...now

How would you and your family pay bills if impacted with the costs of an unexpected accident or illness?

Being prepared

Whether working or retired, it's important to consider and plan for the impact that rising healthcare costs for hospital stays and at home recovery could have on you and your family's finances. Even those who lead a healthy lifestyle may be at risk of experiencing an unexpected health issue requiring the need for therapy and rehabilitation.

Security solutions For peace of mind protection

This insurance can help you manage your expenses, so your savings can be preserved. Benefits are paid directly to you, or a medical provider that you designate, and are paid in addition to any other health care coverage. A Home Care Plus insurance plan can

help you recuperate at home by covering medically necessary treatments – that can often be just as effective as other professional environment options.

Protection you can trust*
